Subject: Revised Statement of Intent for Rezoning

Location: 203 E. Fairview Ave. Greer

To Whom It May Concern:

We are requesting to revise the zoning designation to Design Review District at 203 E. Fairview Ave. Greer. Currently the accessory structure on the property is a single car, detached garage with a finished studio, zoned for a Duplex. We propose to renovate this accessory to become a livable in-law suite. This accessory unit will be finished with vinyl siding (as it already is), 30-year architectural shingles & a slab on grade foundation. The existing driveway and parking area will stay as is, and will continue to be shared between the primary and accessory dwellings. The height of the accessory unit will match existing height, a single-story structure. Shutters to be installed on the front to compliment primary dwelling.

This property will not be further subdivided. The owner will reside in either the primary or accessory dwelling. The property owner will coordinate with City staff and CPW to ensure adequate facilities are in place to serve an accessory dwelling unit. The accessory dwelling unit will have a separate electric meter. The accessory dwelling will complement the primary structure, architecturally and aesthetically. The left side of ADU is slightly less than 5’ in some areas. All setbacks to remain including 20’ front setback, and 5’ on sides and rear. This will be constructed as a rated fire wall to code. Site plan provided with setbacks labeled. Square footage of accessory dwelling will total 807sqft, after the 301 sqft of new addition.

We have submitted a Zoning Amendment application along with this statement of intent. Should any other information be needed to approve the rezoning request, please feel free to reach out to the owner or the builder.

Thank you,

Owner: Beth Smith

Mixed Use Property
Design Review District
701 W. Poinsett St.

Statement of Intent
January 20, 2020

Mixed-Use Property. The planned renovation of 701 West Poinsett St. will utilize the Design Review District (DRD) zoning format. Approximately half of the downstairs will be commercial use. The rest of the downstairs as well as the upstairs will be for residential use. Both the first floor and the second will have a sprinkle system installed. In addition, the bathroom on the first floor will be renovated for handicap use.

Commercial Section. Walking through the front door, the immediate room entered as well as the room directly to the right will be office/retail.

Residential Section. The rest of the house will remain residential.

Adamy's Place. Don and Adamy have been in this current location for ten years and they hope to remain for ten more. They have been loved and admired by many friends and have established great relationships in this wonderful town of Greer.

Statement of Intent
March 11, 2020

Community Development
The development planned for this ±42.1-acre tract along Highway 14 will utilize the Design Review District (DRD) zoning classification. The community will consist of attached single-family residential homes. The roads within the community will be built to private standards and turned over to the Homeowner’s Association (HOA) once completed. Infrastructure improvements will consist of rolled curb and gutter along internal roads, public water mains, public sewer mains, storm drainage, and common area (open space) to be owned and maintained by a newly formed Homeowner’s Association (HOA).

The existing topography & terrain will be utilized to maximize out the common area. The common grounds will be a mixture of undisturbed and disturbed open space. To the maximum extent possible, the developer will preserve existing vegetation along the exterior property boundary. An entrance monument and landscaping will be installed along our entrance off Highway 14. Stormwater management ponds will be installed along the southern and eastern borders of the development to address stormwater runoff and water quality treatment for the community.

Phasing & Density
The overall density of the project will not exceed (147) single-family townhome units or roughly 3.50 units per acre. The project will be phased. Phase I will consist of approximately 30 townhome units, approximately 50 townhome units in Phase II, and approximately 61 in Phase III. If the development proceeds as expected, build-out will be complete within approximately 3 years.

Homes & Materials
The townhomes will have a mixture of sizes and all include a minimum 1-car garage. The minimum square footage per home is anticipated to be +/- 1,200 SF with most ranging from 1,350 SF – 1,850 SF. There is no maximum townhome unit size. Exterior building materials may consist of vinyl siding, shake siding, Hardie Board, brick, and/or stone. Any vinyl siding shall be a higher quality material. Exteriors will contain a minimum of (2) material combinations. Stone or brick accents will be installed to the water table façade as illustrated on the building elevation exhibit(s). Maximum effort will be made by the homebuilder to upgrade the visual appearance of townhome façades along internal roads. Examples of enhancements are carriage-style garage doors and other items to add architectural interest (see building elevations).
**Amenities & Landscaping**

The proposed development will include approximately 28.40 acres of common area with maximum efforts to preserve existing vegetation around the wetland areas and along the exterior property boundaries. The development will also contain associated guest parking for residents. Our entrance drive located off Highway 14 will be heavily landscaped and contain an entrance monument for the neighborhood. Exterior sidewalks will be provided along Highway 14 frontage. The stormwater management pond(s) may be dry or wet depending on water sources once we get into the design phase. Fences and/or landscaping around the pond(s) will comply with current regulations.

The developer will have active and passive common areas which may consist of one or more of the following amenities: fire pit, bark park, and/or community walking trails within the community. Interior sidewalks will be provided throughout the development. A portion of the site will be delineated/reserved for future City trail connections.

**Sewer/Water**

There is an existing sanitary sewer main located along the south side of the property that is maintained by Greer Commission of Public Works. This sewer will serve our site. Public water is available along Highway 14 to serve the development, owned and maintained by Greer Commission of Public Works. The new sewer and water mains built within the community will be built to public standards and turned over to Greer Commission of Public Works.

**Setbacks/Buffers**

All the proposed setbacks for this project are as follows:

- 18’ minimum setback from all internal roads (measured from private R/W)
- 25’ minimum setback from exterior property lines (This is intended to be a building setback only, but maximum efforts will be taken to preserve natural vegetation in these areas to buffer surrounding properties.)
- 50’ minimum setback from Highway 14 (measured from R/W)

**Other Public Improvements & Facility Impact**

All roads and storm features will be constructed to meet applicable design standards and turned over to the Homeowner’s Association (HOA). The common area, stormwater ponds, and entrance features will be owned and maintained by the established Homeowner’s Association (HOA). All construction will be in accordance with applicable building codes, zoning ordinances, and all other state and local laws and ordinances.

Downtown Greer Overlay District purpose is to promote harmonious and compatible development within the Downtown Greer Central Business District which complements the character and charm of this unique mixed center. Currently, there are no development standards that address pedestrian access, and the limit on density for residential complexes is capped to a low level to achieve higher but appropriate density developments within the Downtown Overlay District. Currently there is no required parking for developments within the Downtown Overlay as residential projects are created downtown parking will need to be addressed to ensure both patrons and residents have adequate parking.

As such, Staff proposes the following text amendment:

Add Article 5:18.4.1 Site Development to the City of Greer Zoning Ordinance:

A. **All new construction shall install exterior sidewalks up to eight feet were practicable.**

B. **No parking is required within the Downtown Greer Overlay District for nonresidential uses. Residential uses shall require a minimum one space per unit. Any parking provided shall meet the design standards of Article 6, Section 9: Off-Street Parking Requirements.**

Remove items from Article 5:18.5.2 Design Review Criteria from the City of Greer Zoning Ordinance:

The Planning and Zoning Coordinator will consider the extent to which a proposal complies with the following criteria. Additional design criteria from other sections of the Zoning Manual may also apply to specific projects. The design of all buildings shall meet the standards as outlined.
